RICHARD MESSERLY

1995 E COALTON RD 89-102, BOULDER, CO 80027
801-358-1741 • richard.messerly@nist.gov

EDUCATION

Ph.D. Chemical Engineering, Brigham Young University, Provo, UT 2017
- Dissertation: How a Systematic Approach to Uncertainty Quantification Renders Molecular Simulation a Quantitative Tool in Predicting the Critical Constants for Large *n*-Alkanes
- Expertise: Force Field Development, Computational Chemistry, Configuration Reweighting, Uncertainties in Molecular Simulation, Thermodynamic Data Analysis
- Elective Courses: Quantum Chemistry, Statistical Mechanics, Nonlinear Statistical Analysis, Polymer Science and Engineering, Advanced Organic Chemistry, Classical Mechanics, Instrumental Analysis Lecture/Lab GPA: 4.0

B.S. Chemical Engineering, Brigham Young University, Provo, UT 2012
- Elective Courses: Molecular Modeling, Introduction to Partial Differential Equations
- Excelled in: Thermodynamics, Physical Chemistry, Reaction Engineering, Separations, Process Control, Statistics
- Minors: Spanish, French Overall GPA: 3.78

WORK EXPERIENCE

Postdoc Associate, National Institute of Standards and Technology, Boulder, CO Feb. 2017- 2019
- Received 91/100 scoring from National Research Council selection committee
- Implemented alchemical free energy methods to accelerate Bayesian inference of force field parameters
- Presented research updates for thirty minutes at annual meetings with consortium members
- Collaborated with researchers at the National Institute of Standards and Technology, University of Colorado, University of Akron, Wayne State University, and the Open Force Field Initiative
- Mentored undergraduate student during three-month project for the 10th Industrial Fluid Properties Simulation Challenge

Research Assistant, Design Institute for Physical Properties, Provo, UT Jan. 2012-Feb. 2014
- Performed experimental work that involved: preparation, execution, cleaning, and processing data
- Evaluated literature experimental data and property prediction models for two biofuels
- Presented research updates for thirty minutes at biannual meetings with sponsors
- Mentored two undergraduate students performing experimental work and data analysis

Teaching Assistant, BYU Chemical Engineering, Provo, UT
- Courses: Chemical Process Principles, Dr. Thomas H. Fletcher Jan.-Apr. 2012
  Plant Design & Synthesis, Dr. W. Vincent Wilding Jan.-Apr. 2013/2014
  Molecular Modeling, Dr. Thomas A. Knotts IV Jan.-Apr. 2015
- Conducted exam reviews, held office hours, and graded homework assignments

VOLUNTEER WORK

Church Representative, The Church of Jesus Christ of Latter-day Saint, Guatemala Nov. 2006-2008
- Led a regional group of 12 representatives

Boy Scout Leader, Boy Scouts of America 1999-2006
- Inspired younger scouts to achieve their Eagle while organizing campouts and teaching activities

SKILLS/AWARDS

- **Programming languages:**
  - Python – advanced
  - MATLAB – advanced
  - Git – intermediate
  - C++ – basic principles
  - Visual Basic for Applications (VBA) – basic principles
  - R Project for Statistical Computing – basic principles
- **Molecular simulation packages:**
  - Gromacs – advanced
  - Monte Carlo for Complex Chemical Systems (MCCCS) Towhee – advanced
  - Cassandra – intermediate
  - GPU Optimized Monte Carlo (GOMC) – basic principles
- **Spoken languages:**
  - **Spanish** – advanced reading, writing, and speaking
  - **French** – intermediate reading, writing, and speaking
  - **Portuguese** – basic reading, writing, and speaking
- **Dean's List Student -** achieved a 4.0 semester GPA as undergraduate Apr. 2009 & Jun. 2010
- **Eagle Scout Award -** erected a flag pole in front of a religious center Sept. 11th, 2002
